U. S. Circuit Court. Before Judges Thomson and Betts.

Sitting in Equity. Sitting in Equity.

Dec. 30.—Important to Nautical Men.—Edward Hope et als Pilots, vs. the brig Dido and cargo.—Benj. Aymar, De Launcy & Co. claimants of cargo.—Adams, claimant of vessel—This was a case in Admiralty, heard before the District Court, in which a decree was made in favor of the claimants, and came up on an appeal before the Circuit Court. The full particulars of the case are set forth, as below, in the following decision delivered by his honor, Judge Thompson:—

Judge Thompson:—

This case comes up on appeal from the District Court of the United States for the Southern District of New York.

The libeliants, who were Filots of the port of New York, filed their libel against the brig Dido and her cargo, claiming salvage, or pilotage, or compensation, out of the same, for services rendered in towing the brig into the port of New York. Having taken her up about twenty-five or thirty miles from the Hook, and then neing about ten miles from the shore, having lost her rudder, but had sustained no other dam are whatever, and was in all other respects well f und. The testimony, with respect to the distance of the Dido from the Hook when she was boarded by the pilot, is somewhat at variance; but the view which I have taken of the case, does not make it necessary that I should fix, with precision, the place where the vessel was boarded. The position as above stated, is probably correct, and at all events is sufficiently precise for all the purposes of this opinion.

Here follows a long, tedious argument, which travels round and round the harbor of New York instead of coming up to the wharf. The following is the conclusion:—

The decree of the District Court having been reversed, so

the conclusion:—

The decree of the District Court having been reversed, so far as it considers the service a salvage service, for which the vessel was liable; and is substantially affirmed, so far as it dismisses the libel against the charge, the decree of this court, may be considered an firmance is part, and a reversal in part of the decree in the District Court, and an cost on the appeal allowed on either side against the opposite party. And the decree of this sourt being in favor of the libellants for \$162.50, the amount of compensation allowed by the Warden's, would enable them to recover costs, had that amount not been tendeerd and refused by the libellants. But this offset of payment will, I think, discharge them from payment of costs.—And under this view of the case, the result will be a decree in favor of the libellants for \$162.50, and in favor of the claim must for the costs in the District Court on dismissing the libel against the cargo.

Counsel E. Paine for pilots, W. Q. Morton and D. Graham, jr. for claimants vs. ressel and cargo.

The U. S. vs. Isaac Morris and Frederick A. Peters of the costs of the costs and cargo.

The U. S. vs. leaac Morris and Frederick A. Pe

terson.—On motion of counsel, the Court ordered that the defendants in this case be discharged from custody, on giving security in the sum of \$250.

The U.S. vs. Robert Tillotson.—Mr. Prescott Hall moved for judgment in this cause. The District Attorney appeared the motion at considerable length, but the court overuled the learned gentleman's objections, and ordered judgment to be entered.

Dre. 30 — The last Poisoning Case.—Since the arrest of Phebe Ann Simonson, and several other young women, on such of administering the poisoned cake to your the following particulars. The bottomer from the mystery to the bottomer from the magnistrates and other sources, we have gathered following particulars. Phebe is about 25 years old and a native of Staten Island. Some three years back she came to this city to get employed as a seamstress, where she became acquainted with Floor. She says they were married two years since, by the Rev. W. Chace, and that she has passed herself off as the wife of a sea captain, in order to keep the connection from the knowledge of the deceased's family. By him she had one child, which is dead, and she is now enceinte. Last Saturday week, she called on Floor, at the slanghter house, and asked him for money to pay her rent, which he refused in a very rough manner, but subsequently gave her half a dollar. She then left him, and went to a chemist's in Oliver street, where she purchased three cents worth of arsepic, which she took home and made up into a cake, and gave her husband. She any that Floor was a dissipated character, and that

half a dollar. She then left him, and went to a chemist's, in Oliver street, where she purchased three ents worth of arsepic, which she took home and made up into a cake, and gave her husband. She says that Floor was a dissipated character, and that "she was jealous because he was always running after every body." Several table utensils were found at Phebe's apartment, which contained fragments of cake, or rather dough. They have all been removed to Dr. Chilton's, to undergo the process of analysation. The Doctor has not yet completed his experiments, but we believe that sufficient tests have been applied and results obtained, as will amount to a confirmation of the unhappy girl's story.

Another Burg'ar.—One of the two loafers arrested by the watch di Saturday night was a negro, named Bill Davis, who turns out to have been connected with the gang of ourglars that were arrestel a few weeks back, and are now in "the tombs," awaiting their trial. Bill of course has been sent to keep them in countenance.

Stants.—A lot of splendid Cachmere and merino shawls are in the possession of Justice Merritt, for which an own is wanted.

A HIGH HARDED AFFAIR.—The following strange story has made, a good deal of noise about town during the last two or three days. A negro, named Edward Norfitt, same to reside in the upper part of the city about four years since, saying, "that he had been obliged to leave his native place, which was Suffolk, Nanseem and county, Virginia, in consequence of his abolition is neiples and his having carried his theoretical notion, beyond the boundaries prescribed by those who told adverse opinions to his own. Of course, he became quite a lion among the lovely and fashionable of dr. "York Niggers" as well as the amalgamationists, the more especially as he reported that he was a land owner in the "Old Dominion," and that own't to some internal improvements, the value of his real estate had considerably augmented Things were in this state when the captain of a

ments, the value of his real estate had considerably angmented

Things were in this state when the captain of a schooner called "Time," wasted on Norfitt for the purpose of purchasing his real catate. This man's hame is Robert Gwynn; and it seems that Norfitt had so far enterta ned the negotiation, that a time was named for settling the business. This was fixed or Friday last, when Norfitt went on board of the schooner, lying at the South ferry, where he was rearted with great deference, and invited into the cabin along with the whitemen. The captain these produced about he said contained \$450 in specie, and proceeded to count it out upon the table, at the same time remarking "you must give me an obligation for the estate." This negro declined making his mark, and intimated that \$2000 might be got for the sproperty. At this the captain waxed wrath and said (God d-d) you; you shall either take that or go back \$Virginia." This threat had its effect upon Norfit, who thought it best to clear out and get afe ashore, by on reaching the dock he was completely atonized for any level section will be made to prosible the cambrid of passengers and the ashoner underweigh, and going pal Governor's Island with a fresh breeze astern.

It dyna still so determined not to go with the captain thathe attempted to jump overboard, and was only reskined by the who e crew, including two Police Offices belonging to Brooklyn, who laid hold of him and rast him down below.

Officiate Island the rime came to an anchor, and the sound act of this high handed farce was commenct. Norfit became very frightneed, and said he wild consent to still the property and sign the converance. He was then takenashore, to a place whichlad the appearance of the residence of the sound act of this high handed farce was commenced. Norfit became very frightneed, and said he wild consent to still the property and sign the convergance. He was then takenashore, to a place whichlad the appearance of the residence of the second to the second to the second to the seco

he was a cheat, and that it was all a plot to get his land. At this the man of law loss is temper, blowed up his wife, and eventually explied her from his awful presence. Two or three moe big personages were then be ought into the presence of the man of law and eventually the purchase mone was increased to 3750, at which offer, Norfitt affixed his mark to the deed. One thing more was wanting, i. e. the purchase money; but when Norfitt aked for this, he was told to go to h-ll. and himself hundled out into the street, "neck and crop," in the middle of the snow storm. The next day he came up to the city, and immediately applied to W. Jay Hackett, a respectable attorney and sounsellor, in order to obtain redress. To that gentleman we are indebted for the facts of this "high handed measure," which is now in a fair way of investigation, and, if passible, of punishing its authors, aiders and abettors.

More Fighting and Stabbing.—On Saturday night two Dutchmen, shoe-makers, named Bankort Maly and George Wickeff, had a row and a fight at the house of one Jacob Christman, in Stanton street. While they were thus amusing themselves, one Philip Leonard interfered, and, like most peace makers, got the worst of the affray; for Maly drew a shoemaker's knife, and gave him two stabs—one in the back, and the other in the left side. The poor fellow was taken to the hospital, and Maly was taken before Justice Taylor, who committed him for trial.

Robbery, Marriage, and Arrest.—Some months

Robbery, Marriage, and Arrest.—Some months since, a boarding house in this city was robbed of several valuable articles, such as a gold watch, &c. One of our police officers got scent of the robbers, started in pursuit, and succeeded in catching them in Hamilton, U. C. One sometimes went by the name of George Jones, and sometimes George Waters; and the other as Charles Renderson, but whose real name was Henry Sinclair. Some of the property was found on the latter. After the robbery had been committed, Sinclair married a respectable widow lady. of Guelph, and whe had a snug little property, all of which the rascal was getting rid of very fast, when the officer tapped him on the shoulder. Both are to be brought to New York for trial.

DR. WM. EVANS' CELEBRATFD MEDICINES are composed of vegetable substances, which exert a specific action upon the heart, give an impulse or strength to the as terial system—the blacd is quickened and equalized in its circultion through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbant and exhalcut, or discharging vessels. An morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a heaithful state.

These medicines after much anxious trial and research, having been brought by the proprietor to the present state of perfection, supercede the use of the innumerable other medicines, and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state causes it to last many years longer than it otherwise would and the mind to become so composed and tranquil, that old age, when it arrives, will appear a blessing, and not (as to many who have neglected their constitution, or had them injured by medicines administered by ignorance) a source of minery and abhorrence:

CELEBRATED EYE

A MOST WONDERFUL CURE performed by Dr. J. A FRANCIS, Oculist, No. 10 Barclay street.

My grandson was affilieted for nearly six years with, what medical men term, scrofuleus opthalmia, and a nebula on each eye; and so great was the inflammation, that the white of his eyes were like scarlet, and for the most part of the time he could not bear the light. His head was broken out and in one crust. I had him in the Eye Infirmary for eight months; he was discharged as incurable. Physicia is were consulted, and many remedies used, without any good effect.

I was at length induced to make a trial of Dr. J. Francis' Eye Water; and to the astonishment of all who knew my grandson, he is now restored to perfect sight—and the scrofula is entirely removed—and had it not been for this eye water, I believe the child would have been totally blind, for which the Doctor is entitled to my lasting esteem and grantude.

A REMARKABLE CURE.

This is to certify that my child was almost blind for three years with a nebula and large ulcer that covered the sight. We took her to an Eye Infirmary for one year, but received no benefit; some of the first physicians and oculists were then consulted, and many remedies were tried, without any good effects. Having heard of many astonishing cures perfermed by Dr. J. Francis' celebrate J Eye Water, I procured a few bottles, and to our astonishment and all who knew her, it made a perfect cure in five weeks. I consider this Eye-Water the greatest blessing that has ever been offered to the public, My c'ild can be seen at No. 11 Avenue 3, between Houston and Second street.

From the testimony of those who have used Dr. J. Francis' celebrated Eye Water, we unhesitatingly recommend it to the notice of the public, as a most valuable and safe remedy.

OLINGEN SION OF SPECIE PAYMENTS. The crist.

USFENSION OF SPECIE PAYMENTS—The crisis
Dhas now arrived to test the merits of the cash system, for however flattering the credit system may appear on paper; its effects upon individuals often prove roinous in the extreme. In London and Paris, the consumers have set their face against it and consequently, a number of establishments have sprung up of late years that do a cash business only. This has been termed by some the European system, and has but recently been introduced into New York.

PHILLIPS, of 106 William street, does not claim for himself the honor of its infreduction, but he does believe that he carried it out to a greater extent than any of his rivais. For instance, they content themselves with purchasing for cash of the jobbers, now he remits finds to Europe, to buy of the manufacturers direct, thereby avoiding all those accumulated profits which enhance the value of articles before they reach the customer. The extensive patronage he has been honored with, must be a sufficient voucher of public opinion, as to the way he carried out his assertion of produci affect rate garmeut, cut in a superior style and made by no but the most finished workmen. He effects a saving of 36 per cent on the prices charged by louses who profess to furnish the best goods, and he does this notwithstanding the superiority of his style and elegance of his garments. Phillips will also warrant his coats to be equal to any mode in Broadway, and he considers them the faircest standard by which a comparision can be instituted.

N. B. —Ail goods paid for on derivery, and no gentleman on pected to take any garments when any reasonable objection exists. A call solicited at 106 William corner of John street.
